PROFESSIONAL SUMMARY

Results-driven Software Developer and Full Stack Developer with hands-on expertise in Python, JavaScript, React.js, and Django, building production-grade web applications powered by REST APIs, JWT authentication, and CI/CD pipelines. Skilled at architecting full-stack solutions — from PostgreSQL schema design to responsive, user-facing React interfaces. Strong problem-solving skills, collaborative team player, and passionate about writing clean, maintainable code delivered through Agile/Scrum methodologies.

TECHNICAL SKILLS

Languages	Python · JavaScript · SQL · HTML · CSS
Frameworks	Django · Django REST Framework (DRF) · React.js · Bootstrap · Django ORM
Backend	REST APIs · JWT Authentication · Celery · Redis · Webhook Integration · Unit Testing
Databases	PostgreSQL (Supabase) · MySQL · SQLite · Schema Design · Query Optimisation
Tools	Git & GitHub · Postman · VS Code · Vite · npm · Vercel · Render · Cloudinary · Brevo
Architecture	REST API Design · MVT Pattern · RBAC · SDLC · OOP Principles · Full Stack Development
DevOps	GitHub Actions (CI/CD) · Celery Task Queue · Redis Caching · ReportLab · Agile/Scrum

WORK EXPERIENCE

Full Stack Development & Self-Learning Projects

2026 – Present

- Developed production-grade web applications using React.js, Django REST Framework, and modern JavaScript with focus on scalability, clean architecture, and maintainability.
- Designed RESTful APIs with JWT authentication, refresh token rotation, and RBAC for secure multi-user platforms; reduced unauthorized access incidents to zero.
- Managed end-to-end CI/CD pipelines via GitHub Actions; deployed on Vercel and Render with automated uptime monitoring, maintaining 99%+ service availability.
- Integrated Cloudinary, Brevo (OTP email), Redis caching, Celery async tasks, and ReportLab PDF generation — reducing manual processing time by ~60%.
- Applied responsive UI with React.js, Bootstrap, and Context API; improved load times by ~40% via lazy loading and server-side pagination.
- Collaborated using Agile/Scrum workflows with iterative sprints, code reviews, and continuous improvement cycles.

PROJECTS

E-Commerce Website — Legend [\[Live\]](#) [\[GitHub\]](#)

React.js · Django REST Framework · PostgreSQL (Supabase) · JWT · Cloudinary · Brevo · ReportLab · Redis · Celery · Vercel · Render

- Engineered a production-ready multi-vendor food delivery platform with JWT auth, RBAC, product search, filtering, pagination, wishlist, cart, and order management — incorporating GST (5%) + delivery charge auto-calculation and real-time order tracking.
- Integrated Cloudinary (media storage), Brevo (OTP email delivery under 5s), and ReportLab for automated PDF invoice generation with IST timezone-aware date formatting and structured tax breakdowns.
- Deployed on Vercel + Render with Supabase PostgreSQL; Redis caching reduced DB egress by ~45%; GitHub Actions CI/CD maintain 99%+ uptime via automated service health monitoring.

Personal Portfolio Website [\[Live\]](#) [\[GitHub\]](#)

JavaScript · HTML · CSS · Vercel

- Designed and developed a fully responsive portfolio showcasing projects, skills, and achievements with smooth UI interactions; achieved 95+ Google Lighthouse performance score.
- Deployed on Vercel with custom domain; optimised for sub-2s load time and consistent cross-device rendering across mobile, tablet, and desktop viewports.

Student Management System [\[GitHub\]](#)

Python · Django · PostgreSQL · Django ORM · Bootstrap

- Architected a full-stack academic management system handling 1,000+ student records with CRUD, RBAC via Django admin, attendance tracking, and grade management — reducing admin data-entry time by ~35%.
- Designed a normalised PostgreSQL schema using Django ORM with dynamic search, filtering, and sorting for efficient retrieval across large datasets.

EDUCATION & CERTIFICATION

BSc Mathematics — S.I.V.E.T College, Chennai

2022 – 2025

Python Full Stack Development — Code Pilot, Chennai

Completed Mar 2026

4-month intensive programme: Python, Django, React.js, REST APIs, SQL, unit testing, Agile workflows.
